SkillSelect EOI ID: E0043184744

This points calculation is indicative only, based on the claims you have made in your Expression of Interest (EOI). Please note:

1. This points breakdown calculation may change over time. Some information in your EOI may reach a milestone such as your age or years of experience which would then cause the system to recalculate your indicative points score. Some items of the points test have specific definitions, such as the Australian Study Requirement. Please make sure that you have considered the relevant information on each of these items before finalising your EOI.
2. Clients will only receive points for employment history for the last 10 years from the date they submit their EOI. If the employment period exceeds the 10 years during the time your EOI awaits to be invited then your indicative points score can change.
